

## ORDINANCE No. 52.

An ordinance to provide for the levy of taxes for the year A. D. 1906, for Municipal purposes for the City of Live Oak, Florida, and to provide a sinking fund and for the annual interests on the \$10,000.00 bonded indebtedness of said City.

Be it ordained by the Mayor and the City Council of the City of Live Oak, Florida:

## Breaking the Chain.

In 1881 a bill was introduced in the Massachusetts senate which provided for a bounty of \$5 for the killing of "a lynx or wildcat," says the Boston Herald. When the bill was under discussion Senator Rice of Essex, who had a habit of asking the committee to explain some parts of bills they had reported, said he would like to ask the committee who reported the bill whether the term "lynx or wildcat" referred to two different species of animals or whether it was the same kind of animal called by different names. Senator Rockwell of Pittsfield, who never let an opportunity to say a good thing pass, arose and said, "In the absence of the chairman of the committee who reported this bill I would say for the information of the honorable senator from Essex, who, having always lived in the eastern part of the state, is not probably aware that for years there has been a chain of wildcats roaming over the Berkshire hills, that the object of this bill is to take some of the links out of that chain."

## Bank Note Paper.

The nine kinds of notes printed by the Bank of England are all on thin, white, crisp paper. The ink used is black, a hard, dry preparation, said to be made from naphtha smoke. A peculiarity of the English notes is that the engraving is simple and old fashioned, in contrast to the notes of other countries, which are most elaborately engraved by complicated machinery, the designs being difficult of imitation by hand and the lathes and ruling engines being so costly as to discourage counterfeiters. The English paper is made by a private concern, as is that in use in the United States, the pulp of the latter being a mixture of linen, cotton and silk, the silk threads coming into prominence after the printing. The French bank note paper is of similar texture, half being used with the pulp instead of silk threads. Over 50,000 notes are issued by the Bank of England daily of an average value of £20.

## Our Foolish Alphabet.

Why, think of it! We're not even a reputable alphabet. The letters are all tangled up. J is J when it isn't Y, and more than half the time Y is doing duty for I. S is sometimes Z. G is J, and poor C is always either S or K. We've got four distinct ways to express the N sound—gn, pn, kn and n; four ways to write the terminal syllable "er"—er, ar, or and ir; five ways to sound the letters "ough"—uff, awf, ow, oo and o. And there are no rules. Each of the myriad cases must be separately hammered into a student's head. And this is work for babes!—Mary Bronson Hartt in Woman's Home Companion.
